Firm Profile

*Suh International Patent
and law firm to SungAm Suh
Patent and Law firm.*

SungAm Suh International Patent and Law Firm was founded in 1986. The firm was started by Man-Kyu Suh a former Patent examiner & Director of the Legal counsel Team from the Korean Intellectual Property Office (KIPO), thus SungAm Suh can place special emphasis on maintaining an effective relationship so as to facilitate smooth and timely processing of clients' projects within governmental agencies.

We have approximately 40 working professionals which include patent and trademark attorneys, Attorney at law, and a technical staff. Our employees are top graduates of prestigious universities in Korea. Some of our staffs have received postgraduate degrees and attained broad experience in research and development, specifically in the fields of electrical engineering, chemistry, pharmaceuticals, biotechnology, mechanical engineering, computer software, and business models.

From its inception Sungam Suh International Patent Law Firm has handled a great deal of cases from many parts of the world ranging from such places as Europe, North America, and South America to Africa and Asia. In addition to our international clients, we handle many domestic clients as well. Our attorneys have attended many international Patent conferences and have had the chance to meet with present clients along with establishing relationships with future ones.

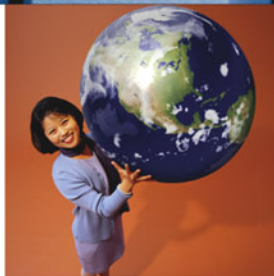

We provide our clients with the top professional and effective legal advice in addition to possessing a keen understanding of what each client needs. Each client is different so, we know that attending to their special needs is of the utmost importance. At Sungam Suh Patent and Law Firm we base our reputation on hard work and a high level of professionalism. This combination has provided our clients with a success along with a great deal of satisfaction.

Gateway to Acquire Industrial Property Rights in Korea

Our firm's IP group covers the full scope of IP rights, including patent, utility models, trademarks, designs, trade secrets, unfair competition, internet domain names, and copyright.

Within the patent group, attorneys with appropriate technical backgrounds specialize in fields such as electrical engineering, chemistry, pharmaceuticals, biotech, mechanical engineering, computer software and business models.

Therefore, our technical staffs possess a solid technical foundation and deep understanding of technology which enables us to provide comprehensive service from the most basic to the most advanced technological areas

Our Philosophy

Sung Am Suh boasts

- speedy processing which is the essence for handling intellectual property
- a processing system which is important for managing the intellectual property such as annuity, request for examination, etc.,
- outstanding communication capability in English as well as Japanese
- providing a customized cost system, upon the clients' request. This service is most appreciated by our overseas clients.
